4. Ky Vendim hyn në fuqi menjëherë.

KRYETAR I SENATIT

Prof.Dr. AGRON KASA

Agreement Between the Sports University of Tirana UST and BGSA (Beach Golf Sport Association)

Taking advantage of the European Project "*Lady Woods Golf*", funded by the Erasmus+ Sport program and managed by BGSA as the coordinator of 15 partner states, the idea is to involve your university as well, in order to establish a collaborative relationship for future years. This ambitious program aims to promote golf as an inclusive and accessible discipline for all. Below is an overview of the hypothesized activities.

Proposal for Academic Collaboration for the European Lady Woods Golf Project.

First phase: Training Day in Italy (February 22 - March 1)

During the first phase of the project, which will take place from February 22 to March 1 in Italy, we will have the pleasure to host two women selected by your University of Tirana, according to the soft skills processed by our technical staff. During the Training Days, the participants will receive a dedicated training, aimed at learning the innovative Golf techniques through an original and revolutionary teaching method developed by BGSA, useful to simplify the approach to this sport, making it accessible in different contexts, as: the beach, streets, snow, public parks etc. This experience will be a milestone to prepare them for their role as ambassadors of the project within your university.

Second phase: Meeting at the University of Tirana (March)

In March, BGSA President Mauro De Marco will be coming to your university for an event to present to all your students of various class years about BGSA's projects and the educational and professional opportunities your students can obtain by actively participating in our activities. The day will consist of two main stages:

- Morning: At the lecture hall, a video presentation of the project will be held for all students, with the aim of explaining the significance and goals of BGSA and in particular the Lady Woods Golf project. The presentation will last no more than two hours.
- Afternoon: Practical golf activities will be organized, involving students. They will need suitable spaces such as: an indoor training facility or an outdoor soccer field. Our disciplines are designed to adapt to different environments, providing a challenging and accessible experience.

This day will be an opportunity to actively involve students, allowing them to come into direct contact with the values and methodologies of the BGSA sports association and the European project.

Third phase: Courses in the university study plan and opportunities for students (March/April)

During the period of March/April, the two ambassadors sent by your university and trained during our Training course in Italy will have to run a short course on the disciplines of Beachgolf and WeGolf (Way entertainment Golf) involving your students at your university. University credits (CFUs) may be associated with these courses in order to encourage active student participation and ensure a comprehensive educational experience. These courses will be open to all students, without any gender restriction, to promote maximum inclusiveness.

Fourth phase: Final Event in Italy (May)

At the end of the course, based on demonstrated skills and achievements, two best female students will be selected. The most outstanding ones will have the unique opportunity to be our guests and represent your university together with the two trainers during the 4-day European grand final event, which will be held in May in Italy.

*** All costs of transfer, accommodation and meals, training of Albanian representatives and technical materials will be covered by BGSA.**

Objectives of the partnership

BGSA is willing to invest with its own economic capital in the above project to enter into a future cooperative relationship with you that will pursue the following objectives:

1) Stable BGSA project activation for a minimum period of three years at your University

Therefore, it is proposed to activate a (curricular) course or initially a course of your choice with permanent certification of at least 3 years starting from the academic year 2025/2026. Courses varying in duration between 40-50h will be run initially by one or more participants trained during the European Lady Woods Golf project. New instructors will still be supported by our mentors through videocalls. At the beginning and end of the program, to coordinate and support and monitor the activities to be carried out, one of our experienced representatives will visit the University of Tirana. During each visit, evaluations will be conducted on the skills acquired by the participants and follow-up sessions will be organized to further improve the skills of those already trained.

*** The cost of international instructors' compensation remains covered by BGSA. The University of Tirana is responsible for the cost of transfer, accommodation and meals for the two days of the beginning of the program and the two days of the end of the program.**

2) Establishment of a BGSA federation in Albania

The foundation of a BGSA federation in Albania, would allow further opportunities to be developed and provide a professional opportunity (at various levels) for Albanian human resources. In fact, within the new federation there will be management positions (reserved for members of the University of Tirana, technical positions reserved for new instructors trained and selected through courses held at you).

Such an initiative would include:

- The organization of press conferences at the university, involving institutional contacts and private sponsors;
- The promotion of sports and educational activities related to the project, strengthening the link between BGSA and the Albanian context;
- The inclusion of Albania in international projects related to golf and sports marketing generally;
- Activation of business operations through the creation of permanent facilities suitable for golf-related activities in all its forms.

Accordingly, awaiting your thoughts on the matter in order to urgently seal a quick agreement given the tight timeframe before the start of the first phase of the European Lady Woods Golf project.
